THE PUPPET SHOW

One of the most entertaining and educational features of the summer school was the Puppet Show put on last Friday by the children of the Practice School as their closing pro-

This was a wonderful example of creative interest on the part of intermediate grade children, the miniature stage and scenery being constructed by the fourth grade during the past year after carefully observing the stages in the Assembly Room and the auditorium. The children painted the scenery, wrote the plays and made and dressed the puppets themselves.

The first play "Children of Other Lands" beautifully portrayed the people and customs of many of the countries about which they had been studying in geography during the year. The second was a quaint little pageant "The Founding of Georgia" which showed vividly the big heart and unselfish spirit of General Oglethorpe both in aiding the poor debtors of England and in his kindness toward the Indians. The last play was a clever representation of Pinocchio the naughty puppet who because of his deeds of kindness at last became a real live boy.

One very unique feature of the Puppet Shows was the fact that the curtain above the stage was thin enough that the movements of the children could be seen as they operated the puppets. Of this the children were unaware.

Between the three puppet shows various other numbers were given, one among them was that the little First Grade Rhythm Band played two selections which were greatly appreciated and enjoyed by the audience and by the players as well. This band, is a remarkable achievement for such small children. They played the drum, zilophone, tambourines, triangles, rattles, and many other tay instruments in perfect time with the music.

Of much interest to G. S. C. W. students is an announcement received last week by the Y. W. C. A. of Luan Norris, born to Mr. and Mrs. John Norris of Choon Chun, Korea on June 13, 1930. Mrs. Norris will be remembered as Miss Oma Goodson, former Y. W. C. A. secretary of the college. Miss Goodson married in June 1928 and sailed for Korea where she and her husband have been doing missionary work.

"THE COED"

There is a current rumor that one of the coeds in the Math class recently defined a logarithm as the song of a lumberman.

THE LIFE THAT COUNTS

The life that counts must toil and fight;

Must hate the wrong and love the right;

Must stand for truth by day, by night.
This is the life that counts.

The life that counts must hopeful be;
In darkest night make melody:
Must wait the dawn on bended knee,
This is the life that counts.
The life that counts

Must aim to rise above the heart to summit skies;

Must fix its gaze on Paradise.

This is the life that counts.

The life that counts must helpful be,

The cares and needs of others see;

Must seek the slaves of sin to free.

This is the life that counts.

The life that counts is linked with God;

And turns not from the rod;
But walks with joy where Jesus trod.
This is the life that counts.
